

Support that surrounds you with care.

Starting on **INGREZZA™** (valbenazine) capsules: What You Need to Know

Once you and your healthcare provider have decided that **INGREZZA** is right for you, the **INBRACE™** Support Program is here to help.

Here is what to expect when your healthcare provider submits your prescription for **INGREZZA:**

The **INBRACE Support Program** will verify your insurance coverage and your case manager will call you and your healthcare provider with the results.

You can only get **INGREZZA** from a specialty pharmacy. This is a special type of pharmacy that deals with medicines that are not available at your local, retail pharmacy. Once your insurance has authorized coverage, a specialty pharmacy will call you to arrange shipment.

Your specialty pharmacy will ship **INGREZZA** directly to you at a location of your choosing via overnight delivery.

The **INBRACE Support Program and your specialty pharmacy will call you with important information about your medication. These calls may come from an unidentified toll-free number, so be sure to answer your phone.**

For additional information, visit www.inbracesupportprogram.com or call 84-INGREZZA (844-647-3992), 8 AM – 8 PM ET, Monday – Friday.
